

THE DAILY JOURNAL

The best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those the Comstock.

NEWS OF THE MORNING.

The New York Sun thinks the first duty of Congress will be to investigate cypher dispatches.

South Carolina Democrats claim that there will be no opposition to Governor Hampton in his candidacy or the Senatorship.

Among the recent arrivals in Washington are Congressman Wren of Nevada, John P. Hoyt of Arizona, Captain John Mollan of San Francisco, C. P. Huntington and William P. McGarran.

The Secretary of War's report states that the number of desertions during the year ending last June was 1,678, which is considerably less than for any year since 1873, but still a crime alarmingly prevalent.

Twenty-nine vessels have arrived at Constantinople, mostly from the United States, with large cargoes of rifles and cannon. The Turkish troops are now as well furnished with arms as before the war.

John B. Garrett charges ex-President Huntzinger, of Philadelphia Coal Company, with appropriating \$52,000 of the company's funds. Bail was fixed at \$40,000. Huntzinger is in jail.

The town of Jackson, Ky., is under control of a mob. The good citizens are fleeing for their lives and the women and children are seeking shelter from any who will protect them. The officers of the law are defied, and havoc and desolation prevail. Men, drunk and wild with frenzy, armed to the teeth with pistols and guns, are walking the streets yelling at the top of their voices, and proclaiming whom they intend to kill.

MORMONS IN ARIZONA.—Ex Governor John P. Hoyt, of Arizona, says the fears expressed in the newspapers that the Mormons are taking possession of that Territory are somewhat premature. He declares there are not as many Mormons in Arizona as assumed by the press dispatches. There is a population of 500 Saints in the settlement near the headwaters of the Colorado river, in Yavapai county. There is another Mormon settlement around Phoenix, in the Salt river country, numbering a few dozen families, and, perhaps, one or two sparse settlements beside.

THEY WERE CAUGHT.—A rich old Marquis recently died in Naples in a house that he had rented from five very pious sisters. Upon visiting the premises to get possession of his riches, his sole heirs, who were a couple of nephews, found such trifling amounts lying around that they instinctively felt that somebody had been there before them. They reported their suspicions to the police. The five sisters were duly sifted, and half a million of dollars was found secreted about their petticoats.

OFFICERS Harris, Hickey, Burke and Frank Heal, of the C.P.R.R. Detective Force, have captured the last of the gang of thieves who have for months been robbing freight cars of large quantities of merchandise. The last capture was made at Carson. The prisoners are Hank Gossett, an old convict; James Johnson, Jim Hopkins, an old convict; Jas. Clark and Matt Sullivan. This breaks up a dangerous and long troublesome gang of depredators.

The New York Sun comments as follows on the naturalization of the New York Chinaman: "Of course, controversy is likely to be raised respecting the citizenship of Wong Ah Yee, but in the end Judge Larrimore's decision, being consonant with common sense, with the spirit of the Constitution, and with the humanitarian principles of this country, expresses the rule that must stand."

THE Nevada County Re-Union Association propose to hold a grand re-union next summer, at Ismert's Grove, and yearly thereafter at the same place.

SENATOR JOHN P. JONES.

Nevada has elected a Republican Legislature, and the return of Hon. John P. Jones to the Senate seems, therefore, well assured. This is as it should be. Mr. Jones is a true and loyal representative of his State, entirely devoted to the interests of his constituents, and proud of the powerful and peculiar class of men whom he represents. Mr. Jones does not always agree with public policies and measures which we advocate, but this does not prevent our seeing in him a true Republican, an honest man, a kindly gentleman, a warm hearted patriot, an always trustworthy friend. In debate Mr. Jones is able and formidable, rugged and eloquent, has thorough and exhaustive knowledge of all public questions relating to the interests of his people, and is, in a high and honorable sense, a true representative of the entire Pacific coast.

The above is from the Kennebec (Maine) Journal, the central and leading paper of the Republican party in Maine, and recognized as Senator Blain's organ.

POSTMASTER GENERAL KEYS says that in three months he will order most of the postal cars now running taken off the railroads unless Congress makes speedy and sufficient appropriations to pay for transportation. He fears nothing less than the withdrawal of these cars will induce Congress to treat the mail service with justice. He says he will not overdraw his appropriation a dollar when it is exhausted for if the service is crippled, or stops, he wants the responsibility thrown on Congress where it belongs, and he thinks the suspension of the mails to people who know what causes it will bring down upon Congress a clamor it cannot withstand. General Key believes the people understand and appreciate the perfection of our postal service, and are willing to be taxed to sustain it, so that they will insist upon their representatives in Congress providing sufficient means for its support, even if appropriations for other branches of the Government are reduced.

CHATTANOOGA is the only Republican town in Tennessee, and the Commercial of that place thus sums up the good results: "To the fact that it has given steady Republican majorities, Chattanooga owes to-day its rapid growth in population and manufactures. Hesitating capitalists have accepted this as an indication of free and liberal political opinion, as an indication of good government and have invested their money with us and given our laborers employment. Under Republican rule Chattanooga has the best school system in the State, has the largest amount of manufacturing capital, and has the largest influx of population of any town in the State."

On the 5th of November, the Richmond Consolidated Mining Company of Ruby Hill, Enreka District, paid at the London office, a dividend of two dollars and a half per share—being the seventeenth dividend thus paid to shareholders, and making the sum total of \$1,722,700 to that date. The stock of this company, of the par value of \$25, sells in London at about \$51.

An English farmer, touched with compassion at the sight of a feeble woman trudging along the road, carrying a child, gave them a lift. He was promptly summoned and fined five pounds for using his cart as a carriage when he had not taken out a carriage license.

It is reported from Washington that the Democrats have decided on a game of bluff regarding the cipher telegrams and will insist upon their investigation. It is believed the plan is to shift all responsibility from Tilden to his subordinates.

WILLIAM A. POTTER, formerly Chief Supervising Architect, has been arrested on a charge of conspiracy to defraud the Government in connection with the erection of public buildings in Chicago. He is a brother of Congressman Potter.

NEARLY 1,500,000 Gospels and New Testaments printed in twenty-two languages were given away at the Bible stand in the Paris Exposition.

THE New Orleans Picayune says that the city is well drained, so far as its Treasury is concerned.

LOTIS A. GODEY, the founder of "Godey's Ladies' Book," is dead, aged 75 years.

An Englishman was boasting to an American that they had a book in the British Museum which was once owned by Cicero. "Oh, that ain't nothing," retorted the American. "In the museum in Boston they've got the lead pencil that Noah used to check off the animals that went into the ark."

SHARON'S DUTY.

The Austin Rerelle very aptly puts the matter as follows:

As a matter of courtesy, if not justice, to Sharon's constituents, he should publicly announce, over his own signature, his intention in the matter. If he expects to attend this session of the Senate during the balance of his term, the people of Nevada must be satisfied; if not, it is due from him to announce to the contrary, that time may be given to look about for a suitable person to take the seat he now holds, before the convening of the Legislature.

On the occasion of a recent festival in Valencia, Spain, a bull, which had been tormented all day by displays of red cloths, picks of iron instruments, and knife cuts, was covered with spirits of turpentine at night and set on fire. He was tied by the horns to four strong posts, but broke loose and ran in agony through the city until killed by a compassionate butcher. Valencia has long been defined by Spanish poets as a "paradise inhabited by demons."

The silver market in London is at a complete standstill.

NEW TO-DAY.

A Noble Charity.

We mentioned a few days ago of the finding a man by the roadside almost dead with exhaustion and of his timely rescue by a party of Reno hunters. He was taken by them to the Junction House, where the kind-hearted landlord kept him until he was able to travel. He arrived in Reno yesterday, weak and discouraged. He is, when able, a hard working man. In fact was at work in Bodie when the mountain fever took him. Hoping to get better by a change of climate, he went to Chico, where he caught the chills and fever. After a long sick spell he became able to travel and went to Susanville in hopes of getting work on the big ditch. Failing in this, penniless he started for Bodie again, hoping to get there and secure work. This is what caused him to try to walk from Susanville toward Reno. He is here, an honest needy man, one who dislikes to ask charity, and regrets exceedingly to be compelled to do so to keep from suffering. An effort will be made to raise enough to buy a ticket to take him to his family. When called upon respond liberally for he is a worthy subject.

The New Chinatown.

They are busy rebuilding the new Chinatown. New houses are being built daily. John seems a little more fastidious than usual, for he now paints his new shanties, something usually unknown. One displays his taste by painting his house a bright pink, though brown (which will not show dirt) seems to have the preference. A fine ditch of water flows through the only street, and this will no doubt tend to keep it cleaner and healthier than Chinatown usually are. Only one brick, a two-story, has been built. From the present appearances they have made a decided improvement upon their old fire rafts.

Stealing Wood.

They are hard at work, are the wood thieves. Piles mysteriously disappear in a night. Nor are printers exempt. When warm weather set in we had between four and five cords, but when we wanted it a few days since it had gone, together with two axes. Somebody will get daylight knocked out of him, or honestly blowed into him with a double-barrelled shotgun one of these fine nights.

Badly Hurt.

Dennis Scanlan fell off the trestle work at the Crystal Peak flume yesterday afternoon and was precipitated about 17 feet breaking some ribs besides being internally injured. Dr. Bergman was telegraphed for and went up and rendered him surgical aid.

Get your job printing for the holidays at the Journal office, if you want neat and attractive work.

Curious Indians.

Many of the Washoe and Pinte Indians who bum around Reno are ordinary looking, dirty and low as any could expect. In fact a look at any of them makes us wonder where the appellation of "the noble red man" came from. But of these we have not to do in this item. Occasionally an Indian girl, probably 15 years old, who runs upon hands and feet like a dog, who does not know how to walk upon her feet, comes here, always with her mother. She runs along by her side just as a dog would do. Some say she is crazy and imagines herself a dog, others that she is half human and half canine. Her face is intelligent, but a trace of the animal is there; the hand is human, but the manner of using it is like that of a dog. She would be a suitable subject for the doctors to study. Another curious Indian is the one compelled to wear woman's clothes for a cowardice in the Pyramid Lake war. He is a "squaw" and as such is ignored by buck and squaw alike. He comes and goes, wanders here and there, only to be snubbed and repelled. We have not seen him here for some time. A peculiarly unfortunate family comes to town from one of the camps in the west of town. The father is blind, the mother a cripple, and the boy remains the only perfect one. He is 6 or 7 years old, and goes ahead leading the old man with a stick, while the mother takes up the rear on hands and knees, using blocks of wood to keep the man from becoming sore. The little fellow appears to feel the importance of his position. The number with game legs, caused by reckless climbing over ears, is so great that it does not come under the head of curious Indians, nor do drunken ones for the same sufficient reason.

Con. Esmeralda.

From a gentleman who visited the Esmeralda mine yesterday we obtained the following information relative to that property: The main shaft has attained a depth of 97 feet. The shaft has cut through ore the entire distance, and at least 30 feet of the 97 is in ore that will mill \$75 a ton—the assays ranging from \$35 to over \$600. From all the tests thus far made the ore is pronounced free milling. Next week the work of crosscutting will be commenced. It is the purpose of the company to run a level east and west from the bottom of the shaft, and also at a point 60 feet from the surface, where a stratum of rich ore, nine or ten feet wide was run through in sinking. When these levels are run the facilities for taking out ore will be ample to keep a mill running; and all this will be done by the time a mill can be got ready for operation. About a thousand feet east of the shaft there is an immense body of ore cropping out above the surface. Here a short tunnel is being run to out this body of ore about 150 feet down. It is believed that something calculated to astonish the natives will be found in this tunnel when the ledge is reached, for the reason that here gold seems to predominate. The tunnel has about 60 feet further to run to out the ledge. In running the tunnel a number of "stringers," or "feeders" have been encountered, from which good assays are obtained, principally gold. It is the unqualified opinion of our informant that this company has the finest showing for a big mine to be found east of the Sierras. On the strength of the success of the Esmeralda, several other parties have commenced work on other locations in the district, and some of them, it is said, are getting good results.

C. P. R. K. Changes.

We hear of some very important changes contemplated by the Central Pacific Railroad, all to go into effect next Spring. The overland trains will be run at much greater speed, the time between San Francisco and Omaha being shortened 20 hours. The train will leave San Francisco at four o'clock in the afternoon, instead of 8 in the morning as now. It will arrive there at 2 P. M. or nearly four hours earlier than at present. The new route—via Benicia and the straits—will be the road over which trains will be run between San Francisco and Sacramento, and that trip is to be made in less than four hours. As soon as these changes are made the lightning train between Reno and San Francisco will be pulled off, and the Company thereby saved \$30,000 per year. But the overland trains will be run on present lightning time, so this section of country will not be discommoded by reason of the withdrawal of the lightning.

The Board of Commissioners will be in session to-morrow.

Brevetted.

To-morrow will be "steamer day." Only three prisoners in the County jail.

C. A. Richardson is gazing at Bodie for a few days.

Mr. Irvin Ayers, wife and son, returned from their Eastern trip last night.

The cash basis commences to-morrow. It will then be cash or no goods.

Last night a shipment of 35 bars of California bullion was made, worth \$143,256 43.

Fulton and Edwards took formal charge of the Gazette yesterday, J. F. Alexander retiring.

The tailings mill near Washoe is kept at work, and the results are perfectly satisfactory.

There will be no services at the Episcopal church to-day at 11 o'clock A. M. and 7 o'clock P. M.

Skating is reported good down by the English Mill, and the boys are fixing up their skates.

The Commissioners meet to-morrow and among other business, will examine the bonds of the officers elect.

There will be no services in the M. E. Church this morning. Rev. A. Dahms officiates this evening Sunday School as usual.

The sale of the delinquent stock of the Orr ditch company, which was to have taken place yesterday afternoon, has been postponed until Saturday next at 2 o'clock P. M.

The water was yesterday let into the reservoir of the Crystal Ice Company. The dam ditch, and everything connected with the enterprise, except the ice house, which is rising rapidly are now finished.

Al. Chuey.

We saw him yesterday. He was sitting with his legs cocked up on a bench smoking a pipe with an air of content at last expected in one over whose head hangs a sentence of death. Around the left ankle he supports a shackle, to which he seems accustomed. He talks good English and displays an excellent knowledge of things in general. The jailer says he is always quick and orderly, and that he seems content to do any thing required of him. The appeal taken by Waldo & Julien, his attorneys, was heard on the 11th ult, but the Supreme Court has not rendered a decision yet. Al. Chuey talks occasionally of the trial, and shows an interest in every step taken in his trial, always persisting in his innocence. He is pale but looks well otherwise.

A Fine Stock.

L. Abrams' new stock is being put in place. A careful inspection warrants us in saying that the stock is complete in every respect. Of genteel furnishing goods there are all the latest novelties, making such a stock as is only found in the first class establishment of the larger cities. In the clothing line we notice everything new and nobby, yet cheap. Abrams has a lot of fine hats to which he calls attention. He thinks he has a market for all that is good in his line, and the public, we know, can rest assured of the best treatment at his place, next door to the post office.

WEIL Bros, agents for Cleveland Suit and Cloak Co., announces to the ladies of Reno and vicinity that they will sell out their entire stock of cloaks, ladies' underwear, fancy goods, also 100,000 yards latest designs of embroidery at cost as Mr. Weil is compelled to go East to superintend his purchase of Spring and Summer goods. Therefore please call immediately to secure bargains, as they mean what they advertise.

ISAACS, of Grey & Isaacs, will leave for the East in a few days, there to remain for the Winter, to purchase next years Spring and Summer stock.

Boca.

The charming village of Boca is destined in time to become a formidable rival to Truckee says the Republican. Her magnificent brewery which sends beer over half the continent, her mammoth ice enterprises which largely supply the markets of California and Nevada, and her gigantic lumbering facilities are the foundation of her greatness. The Clinton Narrow Gauge railroad can hardly fail to connect Boca and Lake Tahoe next year, and so turn the tourist travel largely from Truckee. The Little Truckee franchise, owned by Boca men, is the key to the northern lumber region. There is capital, enterprise and public spirit in the place, and Boca is bound to be a town of considerable magnitude.

Delinquent Taxes.

The books show a delinquency of \$4,344 41 on property having an assessed valuation of \$186,236. A notice of twenty days time is given to pay this delinquency in before the District Attorney commences suit.

More Room.

Charlie Knust had been compelled to rent the Opera House in order to have room to display his holiday stock. So what you are not able to find in his present store can be seen by going into the theater.

Six of Truckee's citizens have subscribed in the amount of \$600 towards the salary of Rev. T. S. Uren. This speaks well for the appreciation of the Truckee pastor.

The extraordinary fine weather we are having puzzles the prophets, and few dare risk their reputation by predictions as to how long it will continue.

C. H. STODDARD, of Washoe county, is announced as a candidate for Sergeant-at-Arms of the Assembly.

HAVE your holiday advertisements ready to put in the JOURNAL next week.

HONEY LAKE apples are being brought in, and cellar room is in demand.

NEW DEPARTURE.—On and after December 1st, 1878, the store of Manning & Duck will be conducted on a cash basis. Every customer will be compelled to pay for his own goods. No extra profits for bad debts. We propose to sell goods cheaper than they have ever been sold in this market. We are compelled to this important step by several weighty reasons: First, we wish to encourage prompt payment. Second, the prompt payer should not be compelled to pay an extra profit for the slow customer or the man that never pays. Third and most important reason, we are not able to carry so large an amount of our capital on our books and keep up our stock of goods. Good gift edge customers will be allowed a credit of thirty days. If by agreement longer time is given, interest of 1 1/2 per cent. a month will be charged.

A. H. MANNING.

A CARD TO THE PUBLIC.—I do not sell any goods 20 per cent. below cost, or even at cost, but I offer my first-class stock of clothing, furnishing goods, boots and shoes, hats and caps, trunks and valises, etc., etc., which have been bought for cash, at the lowest market rates. Therefore I wish the public to post themselves on my prices before going to the humbug shops where they are always drumming into the ear that they are selling at cost, or below cost.
